A beautiful smile  
is never  
forgotten....

So why not  
be unforgettable?

"Its important  
for me to  
look  
and feel  
healthy."

## Let's face it...

One of the first things you notice about people is their smile.

When you meet someone with a bright, natural smile, it catches your attention.

Whitening is a very safe and effective solution to achieve dramatic results.

Enjoy the difference a more youthful, eye catching and dazzling smile can make in your life...

The smile you've always dreamed of.

Only a dentist can get  
your teeth their whitest.

evaluation and consultation today!

## The Dental Whitening Process

### How does it work?

The whitening gel is placed in a thin bleaching tray that fits over your teeth. The active chemical will remove surface and internal discolorations. The structure of your tooth is not changed; only the tooth color is made lighter.

### How long do the results last?

The teeth will always be lighter than they once were. However, some patients may need a tooth whitening "touch up" for one to two days, once or twice a year.

In order to maintain the whitest tooth shade possible, it is best to avoid substances like coffee, tea, red wine and tobacco.

"I feel more like myself now...  
people are always complimenting  
my smile...It's amazing!"
